### DocLab Academy: Workshop Day at Lava Lab

20 Nov 2018 at 9:30

A full day of hands on workshops by several professionals, taking place at design and technology innovation lab Lava Lab.

# Unrest VR

WATCH PROJECT

## An immersive journey into the experience of an invisible illness, myalgic encephalomyelitis.

Unrest VR is an immersive journey into Jennifer's experience of an invisible illness, myalgic encephalomyelitis, Unrest VR contrasts the painful solitary confinement of a bedroom world with the kinetic freedom of an inner dreamscape. When you're too sick to leave your bed, where do you go? Drawing upon visceral meditations on pain, fatigue, and neurosensory symptoms, Unrest VR brings users into a personal experience of a hard-to-understand condition.

## ABOUT DOCLAB

IDFA DocLab is the New Media program of the International Documentary Film Festival Amsterdam (IDFA). Since 2007, the program showcases new forms of documentary storytelling and interactive media art, both online and offline. During the IDFA Festival in November, DocLab presents a competition program for Digital Documentary Storytelling, live cinema events, interactive installations, workshops and industry panels. The program is open to all media that can be used to tell a documentary story. [more »](#)
