Text Correction

In the published article, there was an error. A correction has been made to **The concept of affordances**, *Information and affordances within sport contexts*, paragraph 2. This sentence previously stated:

“As Gibson (13) stated, “behavior affords behavior”. Meaning, it is how two (or more) individuals interact in the competitive performance environment that gives rise to the possibilities for athlete performance behaviors to emerge.”

The corrected sentence appears below:

“As Gibson (13) stated, “Behavior affords behavior,” meaning it is how two (or more) individuals interact in the competitive performance environment that gives rise to the possibilities for athlete performance behaviors to emerge.”

Text Correction

In the published article, there was an error. A correction has been made to **Discussion**, *Practice design for the facilitation of dexterity*, paragraph 2. This sentence previously stated:

“Research questions may still exist on: (i) how to ensure representativeness of practice designs (i.e., for the movement problems presented), (ii) how to appropriately set a movement problem that adequately stretches a specific athlete’s movement behavioral dynamics to a place of continued evolution, (iii) how to determine if a movement solution is “correct”, and (iv), how to effectively guide a performer’s perception, cognition, and action processes to become functionally fit in matching the problems in their world.”

The corrected sentence appears below:

“Research questions may still exist on: (i) how to ensure representativeness of practice designs (i.e., for the movement problems presented); (ii) how to appropriately set a movement problem that adequately stretches a specific athlete’s movement behavioral dynamics to a place of continued evolution; (iii) how to determine if a movement solution is “correct”; and (iv) how to effectively guide a performer’s perception, cognition, and action processes to become functionally fit to match the problems in their world.”

Text Correction

In the published article, there was an error. A correction has been made to **Discussion**, *Practice design for the facilitation of dexterity*, paragraph 4, footnote 1. This sentence previously stated:

“A detailed discussion on this related literature is beyond the scope of this conceptual analysis. Interested readers should refer to the work of 14, 15, 25, 2.”

The corrected sentence appears below:

“A detailed discussion of this related literature is beyond the scope of this conceptual analysis. Interested readers should refer to the work of 18, 19, 20, and 21.”

The authors apologize for these errors and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
