The working title for this practice-based PhD is: Fragmented horizons, Networks and Re-orientation: An investigation into the relationship between

It considers ideas around mapping, perspectives, fluidity and networks to ask what can be learnt from structures within nature in order to navigate

This practice-led interdisciplinary project considers the relationship between the visual arts and contemporary expectations of landscape to qu

The following research questions will be addressed:

How can a sculptural practice examine in detail understanding of place in the context of climate change?

How can sculptural practices consider urban expectations of nature to mediate the relationship between encounters of nature and culture?

What can be learnt from the natural in relation to urban space?
